HAPPY NEW YEAR!

2020 KENTUCKY FOREST ACTION PLAN RELEASED

The Kentucky Division of Forestry last summer released the **2020 Kentucky Forest Action Plan**, a 10-year strategic planning document comprehensively focusing on the sustainable management of Kentucky's forest resource and forest economy for this decade. The plan deadline, US Forest Service approval, and release date became delayed thanks to the impact of the covid-19 pandemic. Details of the 2020 Kentucky Forest Action Plan may be found at the Division of Forestry website link: [Kentucky's Forest Action Plan - Kentucky Energy and Environment Cabinet](#)

REAL AMERICAN HARDWOOD PROMOTION

What is the **REAL AMERICAN HARDWOOD** promotion? The REAL AMERICAN HARDWOOD promotion is a promotional campaign by a coalition of the hardwood-manufacturing sector and hardwood trade associations in using natural hardwood products. Concern of a declining market share by using alternative hardwood appearance products, along with unstable hardwood trade agreements, has prompted a call to action by utilizing a comprehensive campaign marketing approach.

For additional information about this promotion check out the following link:

ANNOUNCEMENT

- At last! A monthly buy-sell publication that reaches almost every sawmill and pallet mill in the USA. For your sawmill or pallet mill to be put on the mailing list, simply call 800-992-3432, and you will receive each month, at no charge, your copy of American Lumber & Pallet. Website: www.amlumber.com.
- **The National Wooden Pallet and Container Association** (NWPCA) is an international trade association of unit load professionals who manufacturer, recycle and distribute pallets and other unit load bases, containers and reels. NWPCA is dedicated to the success of its members by helping them create environmentally responsible, cost-effective solutions to meet their customers' changing materials handling needs.
 - "Pallets Move the World...With Your Help", is a 10-minute training video on proper pallet handling techniques. It is designed for use by lift truck drivers, warehouse personnel and material handling professionals who want to increase their awareness of how proper pallet handling can save time and money by reducing damage. Get a copy now to improve your bottom line by improving your materials handling practices. Contact NWPCA directly at 703-527-7670 x 209. There is a charge for the video of \$29.95 (\$19.95 for NWPCA members). You may fax your order to 703-527-7717 or e-mail your request to palletmbr@aol.com. Please include your name, title, company, address, phone and fax numbers and credit card information.

- Pallet and container solutions available online. The NWPCA Website (<http://www.nwpc.com>) features a continuously updated roster of pallet, container and reel providers, including contact information, a listing of the specific products and services they offer, and hotlinks to individual company websites. Pallet users can use the site to locate suppliers in their area that offer the products they need, including new and repaired pallets and containers, and services such as retrieval and recovery systems or disposal solutions. The NWPCA Website also contains information about pallet quality assurance programs; pallet design and construction standards; publications and services available from NWPCA and its member companies; and a calendar of events. An “industry watch” section features articles covering news and trends affecting the industry.

This survey represents approximate log pricing received at the mill by the logger or individual selling to the mill. This does not represent, imply, or assume pricing for standing timber on your farm or woodland.

Landowners and Farmers Please Note:

In order to make full use of this log pricing data; you should have a cruising report performed by a qualified forester showing species, grade, and footage of the standing timber on your property. Additionally, you must also understand the related expenses in harvesting and transporting timber from your property to the purchasing mill. Farmers and landowners will receive stumpage prices less than those listed in this report by as much as 50% or more in some instances. Costs of logging vary greatly due to access, proximity of the timber to a main road, terrain, distance to the purchasing mill, prevailing conditions, species composition, timber quality, timber size, footage per acre, market species demand, and costs associated with the use of appropriate best management practices (bmps).

Note: all values are expressed for unsawn logs delivered to the mill in dollars per 1000 board feet (mbf) as estimated by the doyle log rule unless otherwise noted.
